Marlin Steel Wire Products founder [Drew Greenblatt](#) is a voice of [American manufacturing](#). As an advocate for [keeping American manufacturing globally competitive](#) his success in exporting to foreign markets has gained him extensive, national recognition. Prior to Chinese President Hu's recent visit to Capitol Hill, Mr. [Greenblatt was interview by CNN](#) to discuss the challenges facing American manufacturers in exporting to China and what he would like see transpire from this visit. In the past year he has [testified before the Congressional Small Business Committee](#), has met with United States Trade Representative Ron Kirk while visiting his facility, and has been interviewed by ABC World News, Fox Business, the Atlantic, PBS Nightly Business Report, USA Today, and numerous other reputable journalistic organizations. Come see how he and his team have transformed their organization and manufacturing processes into an American manufacturing success story.

Founded in 1968, Marlin Steel Wire Products LLC ("Marlin") is a USA-based (and owned) [wire point of purchase basket](#), [rack hooks](#) and shelf [wire form](#) manufacturer with an extensive inventory of baskets, racks, grates, hooks, screens, skimmers, etc., as well as the capability to make a wide range of custom products. Their factory floor space has more than doubled since February 1999 and invested extensively in robotics to compete against foreign manufacturers successfully. We look forward to welcoming your visit.
