October 17, 2011 - 8:00am - 10:00am |

Overview

President Obama's initiative to double U.S. exports over five years and create millions of new jobs has generated a lot of interest in the business community, a rise in trade missions abroad, and a call for more access to financing for those seeking to expand their businesses outside of the United States. "Exporting for Growth," hosted by Washington Post Live, will talk to those who have succeeded in exporting and ask experts how small businesses can most efficiently move their products abroad.
