FOR IMMEDIATE RELEASE:

Two of Maryland's Top Manufacturing Executives to Speak at Next Generation Manufacturing Summit

Baltimore, MD – [Drew Greenblatt, President](#) and Owner of [Marlin Steel Wire](#), www.SheetMetalFabrication.com, and Dr. Michael Galizzo, President Regional Manufacturing Institute, Baltimore, MD www.rmiofmaryland.com, have confirmed that they will be speaking at **The NG Manufacturing Summit US**, one of the nation's most exclusive manufacturing events of the year. www.ngmanufacturingus.com November 15th – 17th 2011 in Austin, TX.

Drew Greenblatt, who just recently [testified before the U.S Congress on behalf of America's small businesses](#), will be delivering the keynote address to an audience of the nation's top C and Senior-Level manufacturing executives. [Greenblatt was recently interviewed on FOX Business News](#), and his business has been featured on news outlets such as MSNBC. This Baltimore-based manufacturer of sheet metal and wire products will be taking a lead role at November's Next Generation Manufacturing thought leadership session. Greenblatt will be spearheading a strategic session entitled, *What's Marlin's "secret sauce"? Learning to make a profit in the face of foreign competition*. Marlin Steel Wire, a [Custom Wire Forming](#) and [Precision Sheet Metal Fabrication](#) company, has achieved 40 percent growth this year over last year and record revenue and profit growth the past six years in a highly competitive industry and struggling economy.

Dr. Galizzo will also be hosting a workshop entitled *If you see something, say something; The loss of middle class manufacturing America*. This session includes an open and frank discussion of the role of manufacturing in terms of the national economy, the middle class and the security of the US. Do Americans have an economic future without growth in American manufacturing? Dr Galizzo is president of the Regional Manufacturing Institute and viewed as a leader behind Maryland's manufacturing community. Dr Galizzo's job is to foster "next generation" manufacturing in Maryland to help companies compete globally and to create more jobs.

The **NG Manufacturing Summit US** is designed specifically with C and senior level manufacturing executives in mind, to assist forward-thinking decision-makers in the context of challenging demands throughout two and a half days of expert-led workshops, roundtable discussions, panel discussions and one-on-one business networking meetings.

If you are interested in participating or wish to nominate a thought leader, please contact Tom Taber at thomast@gdsnewyork.com 212.796.2914.
